

AIR AND FABRIC FRESHENER

With Flairosol® Technology

Better for Performance

- 360° dispensing to spray at any angle, for flexibility and easy coverage of awkward areas.
- Continuous misting spray to cover large areas quickly and easily.
- Expels at least 98% of product, minimising wastage.
- Low noise performance improves user experience.
- A sleeker, more stylish product .

Better for Health

- Propellant-free and non-pressurised.
- Continuous spray and an ergonomic design means less strain on operator's wrist versus repetitive spraying with conventional triggers.

Better for Environment

- Each Flairosol® head is reusable for up to 25 bottle refills of product.
- Bottles are refillable; can be used repeatedly, refilled from our 5 L packs using a pelican pump or aero flow tap, with replacement spray heads sold separately.
- The Flairosol® bottle is 15% lighter than most aerosol cans and refill options mean 25% less transport space needed, reducing material waste and emissions.

Now comes in boxes of 8 x 500ml bottles, complete with 8 Flairosol spray heads.
