

Diversey™

Horizon Boost

Alkali booster

Description

Horizon Boost is an alkaline soak and pre-wash additive to assist in the cleaning of heavily soiled fabrics.

Benefits

- Improves particulate and fatty soil removal by rapidly increasing the alkalinity of the wash solution
- Contains ingredients that prevent linen damage caused by high alkalinity
- Increases wash performance either as a pre-wash additive or at high temperatures, in combination with a mainwash detergent.
- Suspends soil within the wash liquor preventing soil redeposition and the greying of fabrics.
- Prevents soiling being re-deposited on garments during the cleaning process

Key properties

- Based on anionic detergents, builders and alkalis
- Contains a soil suspending agent

horizon

Diversey™

Horizon Boost

Usage Instructions

Horizon Boost can be used in all types of professional washing machines. Horizon Boost is suitable for cotton, linen, nylon and polyester. It should not be used for woollens, rayon's, silks and other delicate fabrics. Use your washing powder as recommended, employing a 2 wash process for heavy soiling and add the following quantities of Horizon Boost in the first wash only.

Less than:	5 kg	65 g
	5-10 kg	130 g
	10-18 kg	260 g

Soaking

Horizon Boost is also beneficial when used on its own in a soaking operation at the same dosage levels. Dissolve the Horizon Boost thoroughly and ensure the articles are completely immersed. Follow the soak by using the recommended wash process, never soak garments with metal fasteners.

N.B. It is important that all residues of Horizon Boost are thoroughly rinsed out of all fabrics and extra rinsing is recommended, preferably with warm water.

Technical data

Appearance	White, unperfumed powder	pH	(1% Soln) > 11.0
